Mobile Market.

Mobile, October 30.—Cotton—Most of the orders in the hands of buyers having been filled, only a light demand has existed to-day, and factors generally were more wilting sellors at yesterday's quotations. The stock here is very nearly exhausted and there is consequently but little doing, but there is no disposition among the trade to purchase beyond their immediate vauts, in view of the fact that the new crop will shortly be in market. Bacon we quote with limited sales at 16½a17c for Shoulders; 183/a19c for rib Sides, and 19½a20c for clear rib do. Hams are steady at 22½a23c for shipping, and 25a28½o for fancy sugar cured. New York Market. MONEY MARKET.

The New York Herald of Friday, the 2d instant, state

that:

The gold market opened at 146% and steadily advanced to 147%, under the report of the removal of the Baltimore Police Commissioners, and fears of a collision between the old and new forces in consequence. It afterwards slowly reacted, however, to 147, the closing quotation. The supply of coin for delivery was easy, and leans were made at 1.32a1.64 per cent premium in favor of the lender and "flat." About eight millions were disbursed by the Sub-Treasury in payment of the November coupons. As half of the total amount of nearly twenty-four millions is due to foreign holders, the general belief is that if will produce but little further depression of the premium.

of the promium.

Money was in easy supply to first-class houses to-day at 4a5 R cent, but owing to some shifting of loans there were a few transactions at 6 to weak parties on scanty collaterals. That this rate afforded no criterion of the market however were a real-content. ware a low transactions at 8 to weak parties on scanty col-laterals. That this rate afforded no criterion of the mar-ket, however, was evident from the fact that more than one of the leading dealers in Government securities sup-plied themselves at 3½. The domand for money is rath-er brisk, but the supply is still fin excess of it, and the prospect is favorable to increased ease. There is no demand for discounts worth mentioning, and no percepti-ble drain Westward or Southward, while there is a steady influx of currency from the interior. The Chicago Tri-bune, of Monday, said: "The course of exchange is, for the present in favor of New York, and some of the banks are obliged to ship currency. The railroads are blocked with flour and other rolling freight." Boston complains of a plethora of money, and the complaint is echoed throughout the country. With such an abundance of fa-cilities for speculation, and with real values to sustain it, there is little to wonder at in the present excitement in the market for railway shares, one favorable sign of which is that it has thus far been guided more than ordinarily by real values.

PRODUCE MARKET.

NEW YORK, November 1.—BREADSTUFFS—Receipts 16,240 bbls. flour, 63,692 bushels wheat, 88,395 do. corn, 26,511 do. cats, 7,600 do. rye, and 81,648 do. barley. There was less demand for State and Western Flour, and the market was comparatively a shade easier, closing quiet at the quotations appended, at which 9,500 bbls. were disposed of. For Southern a fair demand prevailed, and the market remained very firm; sales 1,350 bbls. Rye flour was less active but steady at our quotations; sales 510 bbls. at \$7 25a\$8 60. The market for corn meal ruled quiet but firm; sales unimportant. We quote: Superfine and Western.

\$9 75@\$11 80 Extra State.

10 30@ 11 90 Choice State.

11 85@ 13 50 Common to medium extra Western.

10 \$46.12 co.

31 22 for mixed Western. Of type we notice sales of 2000 bushels old Western at \$1 35. Barley malt was dull and nominally unchanged.

COFFEE—A steady trade demand was noticeable to-day, and a moderate business in most kinds was consummated in lots at full prices. We note sales of 464 bags Savanilla at 26½ cents, currency, and 100 barrels Jamaica at 18½ cents gold, duty paid, all for consumption. For round lots and cargoes of Rio there was demand, but transactions were prevented by the continued firmness of holders.

COTTON—The market at the opening was very quiet, and holders were generally willing sellers at previous prices, but subsequently quite an active speculative demand was developed, based chiefly on further accounts from the South, received to-day, concerning the extent of the damage to the crop by the recent killing frost, which were nearly all of a character to forbid the hope of realizing the previous estimates of the crop, at least in the already affected localities. The sales to-day were large, reaching nearly 4500 bales, nearly all bought on speculation, though in part for shipment to Europe, and for home consumption. The market closes quiet at the following quotations:

Richardson, Spence and Co.'s Circular.

LIVERPOOL, October 19.—COTTON.—Our market was excited at the commencement of the week, and prices advanced ½d per lb. The determined inactivity of buyers in Manchester, and telegrams giving rather lower quotations in New York, have caused a reaction, and we close dull, although still ½da½d per lb. over last week's price: Middling—Uplands 15½d; Mobile 15½d; New Orleans 15½d; Texas 15½d. P. S.—Saturday, 20th October.—The tone has improved to-day, and prices are very strong at yesterday's rates; sales 12,000 bales. Breadstuffs.—The corn trade has been very active, and a general advance has taken place this week. At our market on Tuesday wheat was 3dadd; flour dalas; and Indian corn is dearer. To-day a further advance was made of 3d on wheat, is on flour, and is on Indian corn, but with only a moderate business, and less animation. Beef.—Bettor demand, without change in prices. Pork—Moderate demand; prices unchanged.

BAGON—Slow sales at last week's quotations. Lard rather more inquiry at a reduction of 1s to 2s. Cheese—Moderate demand at steady rates. Tallow—Good demand at firm prices. Messas. Chickerine & Sons-Genis: I have much pleasure in enclosing a document signed by the first composors, musicians and professors in Europe. I held your Pianos in such high estimation (vide my certificate) that I felt it my duty to take one of them with me to Europe, to ascertain the opinion of my professional brethren. The enciosed certificate will prove how unanimous they have been on the subject. I beg to forward, at the same time, a letter I received from my friend, Mr. Collard, which I am sure must be gratifying to you.

ng to you.

I have the honor to be, gentlemen, yours very truly,

JAMES M. WEHLL.

James M. Wehli, Esq.:

My Dran Sin: I have great pleasure in asking youto convey to Messrs. Chickering the expression of my highest approval of their instrument. It is, I consider, not merely the best instrument of American manufacture that I have tried, but one of the fluest Grand Planofortes that has ever come under my cheevation; and the Messrs. Chickering may well be proud of having turned out from their manufactory an instrument which, for touch, quality, power and workmanship, it would be very difficult to surpass in any part of the wide world.

wide world.

Dear sir, very sincerely yours,
OHAS. D. COLLARD,

James M. Wekli, Esq.:

My Dean Sin: As you are going back to the United States, I must beg you to remember me kindly to the Messrs. Chickering. Tell them I was delighted with their Grand Plano-forte—as good an instrument, I think, as was ever turned out, both in touch and tone.

Wishing you, &c., I remain ever truly,
H. F. BROADWOOD,
Firm of I. Broadwood & Sons, Plano-forte Manufacturers, London.

LONDON, July 20, 1866 Meurs. Chickering & Sons:

GENTS: I have just been invited by Messrs. Collard to try a Grand Plane-forte manufactured by you, and it have no hesitation in endorsing the opinion of my old friend, Mr. C. D. Collard, viz: That it is the finest in

Testimonials from the most distinguished Artists in Europ to Messrs. Chickering & Sons: LONDON, July 25, 1866.

Having played upon a Plano-forte made by Messre. Chickering & Sons, of Boston and New York, I have much pleasure in testifying to its general excellence. For sweetness and brilliancy of tone, delicacy of touch and magnificent powor for concert purposes, I consider it a really Grand Plano-Porte, and Decidence. LY THE BEST I HAVE SEEN OF AMERICAN MARUFACTURE. A CHEST I HAVE SEEN OF AMERICAN MARUFACTURE. W. KUHE.

Among the chiefpoints of excellence of the Chickering Planes, of which speak the renowned artists in their congratulatory testimonials to the Messra. Chickering, are the greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness and perfect evenness throughout the entire scale; and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch.

During the past forty-three years this firm has manuscitured. BO,000 PIANOS. In the construction of which they have introduced every known and valuable improvement. They have invariably been selected and used by all of the world's acknowledged great artists who have visited this country professionally, both for private and public use.

THALBERG. I consider Chickering & Sons' Pianos, beyond com-arison, the best I have ever seen in America.

GOTTSCHALK. I consider Chickering & Sons' Pianos superior to any in the world.

They are unrivalled for their singing qualities and for the harmonious roundness of their tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearness and purity which I do not find in any other instrument, while the base is distinguished for power without harshness, and for a magnificent senerity.

WEHLI. Your Fianes are superior to any I have ever seen in this country or in Europe.

I have never heard a tone so perfect; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of its tone, together with its sympathetic, elastic and well balanced touch.

PIENANSEE.

POZNANSKI. During the past eight years I have constantly played upon the justly celebrated Erard Planes; yours are the only instruments that I have found, either here or in Europe, to equal them in all their points of excellence.

It may be satisfactory to our patrons and friends among the public at large to state that testimonials have been received from all the leading artists who have visited or are now residing in the United States, a few of whose names, besides those above, we append:

CROP—The fine weather for picking, that has lasted for five weeks, has greatly encouraged estimates, though nothing is yet hazarded as to figures with any degree of confidence.
